01 . Tic Tac Toe

Condition:

Write a program that accepts an array of character inputs from the game "Tic Tac Toe".

Input:

- Inputs will be entered by player 1 as "X", by player 2 as "O", and blanks as "#".

Output:

- The program should return a result for the winner or for a tie.

Examples:

Input	Output
XO# OXO O#X	Player 1 wins
X About About About X About X#O	Player 2 wins
XXO OXO XO#	It's a Tie
